COMMENTS ON THE BULLETIN

John Evarts writes from Gulfport Field in Mississippi: "The newsletters are more and more interesting."

Private Francis Foster writes from Camp Claiborne: "It is such a real pleasure to receive the College Bulletins and music programs. Humanizing them with excerpts of students before me and students I know gives an opportunity to see what B M C can do. It is particularly interesting to compare my experiences and reactions to army life with those of others I know. Mentioning 'cataloguing in the Round House, working in the Dining Hall' help me to visualize Black Mountain and feel more intimately its activity, and, I admit, with some lonesomeness."
