Manchr 7th Augt. 1817.

Dear Husband,

By a favourable opportunity I am enabled to inform you of how we are since you left this country and your two children are well at present notwithstanding the many inconveniences which we may have laboured under since your departure. But thanks be to God, who is still kind to us, and that keeps me in hopes of once seeing my beloved husband once more on English ground where here he may view the light offspring of his womb with joy and gladness. I need not say more on this subject. Your Daughter Mary Ann, and Charlotte, are now grown up young women, and with all the eagerness of their souls would be glad to see you. May God hasten the period when we shall live together, with harmony and joy. We still live with my Father and Mother, they also enjoy tolerable good health according to their years. Your two Daughters, and I still keep working at my Cousins Samuell Greens Garrett. May God keep a watchful Guard over us
