nights Elizabeth Cole the Petitioners wife came to my House and staid all night, and each night a certain Young man of the Neighborhood after she had gone to Bed, came onto the House and went into the Bed in which the said Elizabeth and myself lay. And the said Young man to my positive Knowledge had carnal Knowledge of the body of said Elizabeth, at different times during the two nights — at one time, whilst the young man was on the body of the said Elizabeth and at my elbow commiting their Whoredom the said Elizabeth Observed to the young man in a low voice, and requested him not to bear so hard on her Belly for that she was prignant by him and that he would, by pressing so hard, perhaps destroy his infant son; he replied that he supposed the Child was got by Matthew Cole her Husband — she replied "no" it was no more her Husband's than it was this deponent's, who lay by thier side; Upon the whole this deponent unequivocally states that at different times she saw the same Young man on the body of the said Elizabeth Cole and to every appearance Commiting Acts of Whoredom, and further this deponent saith not Sworn to in the Court House of Richmond County the 10th August A.D. 1816.
