Ann Pauline Foster = Lived & worked at Mr Melton's
Went there 1st March this year - related to Ann Melton -
Came from Batavia - age 21 - came to see her Grandfather
& saw Ann Melton & James - they offered her 21 Dollars to work
there this summer - Never saw Dula until she went to Dula's
was there the day she went - He was there every day or
every night - Come when M. was away if possible - if
not come when he was there - would stay all night & sleep
with Ann - 3 beds in the house - Pauline in one - Ann in
another & Dula pretend to sleep with another - Quarrel be-
tween Dula & Thomas Foster - Ann & Tom sometimes fell
out - Melton never slept with his wife - Dula would
sleep with Ann frequently while Melton was there - Dula
never slept with Witness nor Melton - Dula would romp
with Witness - would say he did it want people to think
he came to see Ann - would always devote himself to Ann
when lay themselves - Ann had great influence over Dula
She ~~made~~ was going over to beat Mr. Griffin. Never heard
her speak to him about Laura Foster - had heard her quarrel
with him about Caroline Barnes - Ann told her she was
diseased, a short time, a few days before she threatened Laura - She
was very angry - On Thursday morning she told her Dula
had given her the disease & that Laura gave it to him -
She would fool Melton (who had it) but would have her
revenge - she would have to do with M - & make him think
he gave it to her - She said "she was going to kill Laura
Foster - & if I should leave that place that day or talk
secret with anybody she would kill me" - Did not
call Dula's name - said she would go to her mother -
