not willing - followed Pauline some distance to get her back. Dula had been brought back & put in jail before she left - Ann Melton & Sam Foster came to Watayne after witness - she came with her - Ann told Pauline that they were talking about meeting her & induced her to come back - Ann frequently sent things to Dula - About 3 weeks after Pauline came back from Watayne, Ann again said "Poor Dula I wonder if he will be hung" "Are you a friend of Dula?" "I am" "Are you a friend of mine?" "I am" - "I want to show you Laura Foster's grave - they have pretty well quit hunting for it - I want to see whether it looks suspicious if so she would bring the body to cabbage patch down next morning & work over" - then changed her notion & said "No that won't do, I will take her over & put her in the big mountain towards Ret Hall - would cut her up & put her in a bag & carry her" - They started to the grave - went up ridge road to Lotty Foster - then off through an old field - then crossed Cedy branch - then mounted another ridge & came to a pine log, where the dirt was apparently rooted up by hogs - Ann said the grave was up further between two ivy bushes - covered up the ground with leaves to prevent suspicion - Pauline refused to go further - Ann wanted to go to the grave - & cussed witness terribly until they got to the creek - told witness at the creek that if she ever told this she would put witness where Laura Foster was - when they got near home pretended it was a dream - About a week afterwards - Adkins & Ben Ferguson came to Meltons - all sitting then talking - Ben said he believed witness helped kill Laura Foster & run to Watayne on account of it - Witness said "Yes, Tom & I did kill Laura" - squeezing Adkins hand & laughing at him - Ann said "You have said enough to hang you & Dula both but you said it in a joke" - then joked with a rope &c -
