Your Honorable body will grant her a divorce from her said husband in as full and ample a manner as if she had never intermarried with the said Charles, and thus afford her an opportunity to hold to acquire and possess such property as she may by that means be enabled through her own industry & economy to accumulate for her future support.

Your Petitioner further states that she is now near the age of sixty years that she has no prospect or desire of ever entering again into the marriage state and that she desires a separation under the legal provisions of your Honorable body from nor for any other motives than the preceding. Which she prays you will grant her and she as in ~~duty~~ bound will ever pray &c. &c.
